EXPERIENCE

THE SPARKS FOUNDATION | GRADUATE ROTATIONAL INTERNSHIP PROGRAM

Oct 2020 - Nov 2020 | Indore, MP

PERSONAL PROJECTS

FACETIME

- Face time is an anonymous video chat application.
- You can call your friend by entering their username or you can create one.
- It uses WebRTC and WebSockets under the hood.
- The application uses wrapper over these technologies. It uses simple-peer for WebRTC connection or peer to peer connection. It uses Socket.io for web sockets.

KRAFTY KART

- Krafty Kart is an minimal ecommerce website.
- It has authentication, cart, orders, products, rating & reviews support.
- The API is equipped with filtering, sorting, pagination and field limiting and follows all practices of REST API.

RECIPEIFY

- The Recipeify web app lets you search more than 200000+ recipes from a single platform.
- People can like or save their favorite or next recipes.
- They can increase or decrease serving size.
- You can add ingredients to shopping list.

BUDGET-APP

- The budget web app helps you manage your budget at ease.
- It helps you add your income and expenses and manage them easily.
